To: The Homeowners on both the Public and Private sections of Forest Lake Road

2025 Road Survey Results:

The Road Committee Members: (Patrick Gruenke, Alan Grzywacz, Tom Hintz, Dave Meurer, Peter Mueller, and Dianne Ostrowski) are grateful for the survey responses, your ongoing financial support, and the general efforts the Forest Lake Road Community has provided.

It was important to survey all of the Forest Lake Road homeowners for your collective input and direction.

We are especially grateful for the following resources you have provided. These projects are not possible without your continued support.

- 1. The Fall Volunteer Workday.** We do have to request additional property owner involvement for the fall/summer workdays. We need a higher level of engagement from the property owners cutting and hauling brush, tree trimming, mowing road edges, filling potholes, etc. Special thanks for those do show up with tools, labor, trailers, tractor, luncheon and other resources.
- 2. Emergency responses.** Many of our road residents step forward during emergency road events. Examples are the post storm road searches for downed trees and wires, digging out snow at the mailboxes. Additional gratitude to Patrick Gruenke and Peter Mueller on snow removal.
- 3. Financial Support.** We are grateful for the ongoing financial support regarding the annual Road dues, (\$75.00) and Long-Term Maintenance Plan donations.
- 4. Your feedback is always welcome,** contact one of the committee members.

The survey responses are compiled in two parts. Please see these tabulated data in the files on the FLIA Website.

1. Master chart
2. Summary charts and graphs.
