

May 1, 2026

Minutes of the April 28th, Spring Road Committee Meeting

Attendees, Tom Hintz, Dianne Ostrowski, Al Grzywacz, Dave Meurer, and Patrick Gruenke.

Funds Summary

As of end of March 2026 there was \$2,785.34 in the General Road Fund.

The 2025/2026 Town of Auburn Snow Plowing bill is pending in May, est. \$1,250.00.

The Long Term Maintenance funds is \$134.48

No large projects are planned for 2026.

We are in a planning stage for work on the last hill. 2027 or 2028.

The topic of brush and tree refuse dumping on the State land is a concern of the State Forest DNR Management. Please do not dump/dispose trees, stumps, or brush to the State side of the Forest Lake Road. The Town of Auburn Recycling center does have a burn pile for brush. Brush hauling may be an option on the fall workday for the involved homeowners that show up to work on that day.

The 2025 Forest Lake Road Survey results were reviewed and are now posted on the FLIA website. Please go to **forestlake.info (password VanBlarcom)** to see those results.

The Committee discussed the option to deploy Speed Bumps. The survey results, the absence of written legal authorization from the Town of Auburn, and liability of deploying speed bumps on the public portion of the road were part of the discussion. In light of the above, the Road Committee consensus was that we will not be deploying speed bumps in 2026.

The Committee will be updating speed control signs on Forest Lake Road.

We are reviewed the annual road fees for homes on the private section of Forest Lake Road. Currently at \$75.00 per year, we are going to raise that fee to \$100.00 effective in the 2027 calendar to offset rising costs in the current economy.
